

From the Principal

Mr Adrian Drane

AT THE END OF THE DAY

Each day is your gift of time to us, Lord.
At the end of the day, perhaps I need to ask:
 Did I get it right?
 Did I matter to someone?
 Did I live my humanity?
Did I turn to God in a moment of weakness?
 Was I moved?
 Did I feel compassion?
 Did I accept a challenge?
 Did I forgive?
 Would I have lived the day differently?
What would Jesus have said or done in my place?
 Did I pray?
At the end of the day, there are two questions that matter to God:
"Did you love with all your heart, with all your mind and with all your soul?"
and "Did you love others as you love yourself?"
For only then was the day lived well.

2015 Planning

We are now officially in the second half of Term 3 and things are moving along well. Subject selections have taken place at all year levels and information is being collated from teaching staff for the beginnings of the 2015 timetable. Hard to believe that this is all happening at this stage in readiness for the year ahead. However, it is a long process to ensure we offer the best pathways for all students. At the time of writing this article I am heading to a meeting in Hobart to discuss school funding for 2015 and beyond. I am hopeful that the funding we receive from the Federal and State Government will not be reduced.

New Staff

I welcome new staff member to the College Luis Escobar. Luis is an ex-student of the College and is returning to join us in our Learning Support Team as a Teacher Assistant. Please join me in welcoming Luis back to the Marist Regional College Community.

From the Principal

Mr Adrian Drane cont.

NSATIS Sport

NSATIS sport rosters are nearing finals. The performance of our teams has been excellent at all levels. I congratulate all students who have been involved and wish them well for the upcoming finals.

Kalori Distribution

The 2013 Kalori (College Year Book) will be distributed to students who purchased these through the next week. Those students who are no longer at the College will have them posted out to them. I thank Ms Katie O'Rourke for the vast majority of the work that goes into producing a publication of this standard.

The Australian Childhood Vision Impairment Register

The Australian Childhood Vision Impairment Register is hosted by the Royal Institute for Deaf and Blind Children and is supported by Vision Australia and Guide Dogs. It is the first national register of children in Australia with vision impairment. The Register has been collecting data since 2009, and this data is providing important information about the types of eye disease and vision disorders children have and the support they need. The data is also used by service providers and researchers. Data is stored securely and no child can be identified in any way when the data is released.

vifamilynetwork.org.au

Families are invited to register their child (aged 0-18 years) if they have vision impairment in both eyes which has been diagnosed by an eye specialist or ophthalmologist. Registration can be completed by contacting Register staff on (02) 9872 0303, or by visiting the VI Family Network website at: vifamilynetwork.org.au. The website also provides information on eyes and vision; family support; education and related issues; braille and low vision aids; technology supporting vision impairment; newsletters from Australian low vision agencies and support groups, useful websites; and news and events that might interest families across Australia.

Teaching and Learning News

Congratulations to students who have recently participated in a range of competitions and events over the past few weeks, some of which are included below in reports from Mr van Ommen and Mr Cox. Participation in these activities, over and above day-to-day classes, has been shown to have a positive impact on student overall achievement. Thank you to staff, volunteers and parents/carers who support student participation, and a special thank you to Tess McDonagh. Parents who would like to be involved in extra curricula activities or have ideas of programs they would like to run are encouraged to contact the College. We welcome continued development of opportunities for students on the coast.

Public Speaking and Excellence in Story Telling

Year 9 were absolutely captivated for a whole hour and a half last week by visiting public speaker Marcel Bernard. In her entertaining and lucid way, she explained how we all engage in formal or informal public speaking everyday of our lives, despite the fact that we all seem to fear it more than just about anything else! She showed us how this fear can be *easily* overcome by understanding basic principles like thorough preparation and practice. Once a painfully shy student herself, she recommends students rehearse their script 10 times and to have a full script on one side of their paper along with key points on the other. The hardest part is starting of course and she suggests: "Hands by your sides, shoulders back, chin up, smile, eyes looking at your audience! – act like a super speaker. Fake it till you make it!"

These principles incidentally, will come in very handy for all those students who have put their hands up to participate in debating this term, thanks to the initiative and guidance of one of our proactive parents, Tess McDonagh. Thanks Tess! The big debate will be on the last day of term at lunchtime in the Colin Theatre.

Congratulations go to the following students who collectively were judged the winner of our ABC Heywire Excellence in Storytelling Award for Tasmania in 2013 . Thanks also go to Mrs Gabrielle Streat who was so proactive in helping students prepare. The ABC apologises for the delay in sending the certificate which will be presented at assembly in due course.

Jemma Kenworthy, Ashleigh Swain, Jemilla Harris, Kristopher Denby, Ryley Jones, Bronte Matthews, Molly O'Mara, Shanaya Paterson, Brylee smith, Katelyn Cramer, Meg Parker.

On 21 August kindergarten students from Stella Maris joined our English Writers' class. They were asked to think about what they would say if they could say just one thing to the whole world, and to dictate this to the senior students to write down for them. This allows the kinder children to see their thoughts organised and in print, and allows the senior students to gain an insight into a young child's interests, concerns and point of view, and potentially to stimulate ideas for their important writing project. The kinder children were dressed as characters in honour of Book Week, so the meeting contained a delightful combination of truth and fantasy.

Mr Steve van Ommen | Head of English Faculty

From the Deputy Principal of Learning & Teaching

Ms Ann Roberts cont.

National Science Youth Forum

Congratulations to Samuel Aitken

The National Youth Science Forum is a unique program that enables students on the point of entering their final year of secondary school, the opportunity to get a hands-on feel for careers and learn about study options in the diverse fields of science, engineering and technology.

Sam will live on campus as a university student, gain an insider's perspective on campus life, and experience real science, working with real scientists at a range of laboratories and workshops for 5 days in January 2015.

Well done Sam on your abilities and diligence in making it through this application process.

Mr Darren Cox | Head of Science Faculty

Applied Science: a Lesson in Cheese

In Year 10 Science Plus elective our students have been enthusiastically making Camembert Cheese.

It is a time consuming process and I wish to thank Gaylene Veith our laboratory technician for all her help in making this a very smooth process. The students should also be thanked too for their excellent behaviour and diligence in making the camembert cheese. It initially takes over 4.5 hours to make and then you have to leave it to mature for 7 – 8 weeks before eating the Camembert.

Milk is the essential ingredient but the students learn to use applied chemistry techniques and a range of enzymes and microorganisms such as:

- Two types of bacteria for the flavour (cheaper camembert has usually only one bacteria)
- Penicillium (forms white fluffy mould fibres when cheese is curing to protect it from harmful bacteria and microbes entering the cheese. This is later compressed when wrapping the camembert and is the white rind)
- Rennet to coagulate (bring the milk to a solid, "curd")

After the 4.5 hours the camembert curd is placed in hoops and turned a number of times. Then it is placed into a computer controlled fridge at 11.2 °C for 8 – 10 days until the penicillium has grown white fluffy mould fibres. After 10 days it is wrapped in a porous wrapping paper and left to cure in a fridge at 4 °C for another 7 – 8 weeks. After 8 weeks the students and their parents will be enjoying beautiful camembert cheese.

Students involved in the cheese making were:

Jenna Bennett, Demi Bucknell, Lauren Crocker, Emma Dunham, Abbey Fairbrother, Ryan Jaffray, Yuling Liang, Dami Olomola, Joel Philpott, Aleece Porro, Samuel Reugebrink, Austin Roberts, April Saltmarsh, Callam Stewart, Michaela Storen, Samuel Strickland, Sebastyan Sullivan, Alec Townsend, Lily Zarb, Kelsey Anstis, Liam Birlison, Isabel Dolting, Doyle Freeman, Isabelle Jaffray, Varun Kotay, Jenna Lyden, Mali Mai, Erinn Ollington, Ellen Richardson, Isabella Smith, Saraa-Jai Smith.

Mr Darren Cox | Head of Science Faculty

Brining the Camembert Cheese.

Isabelle Jaffray – Wrapping the Camembert.

Lauren Crocker and Lily Zarb – Making the Camembert from milk and microbes.

External Folios

As you may be aware your son/daughter may soon begin preparing folios and Investigation Projects which are part of their external assessment for TQA 3 exams. The following information will be provided to staff and students who are participating in this process.

If your son/daughter has an external assessment task please be aware of the following TQA protocols. All inquiries in relation to this should be through Jill Kerr (6432 7621; jkerr@mrc.tas.edu.au)

Extensions for Externally Assessed Folios and/or Projects

The Tasmanian Qualifications Authority (TQA) may grant extensions to candidates who, due to extenuating circumstances, are unable to submit their folio/project for external assessment by the due date set by the TQA. Extensions can only be approved by the TQA.

Students must apply to the TQA **via the school** for an extension **no later than 48 hours** before the due date. **Applications must be on the Folio Extension request form and be endorsed by the TQA Co-Ordinator. Supporting documentation is required (eg. medical certificates).**

Part 4 (c)(iii) of the external assessment rule clearly states that the TQA will only accept candidate folios of work for assessment if the folio is officially received at the designated collection centre (usually a school or college) on or before the published due date (and by no later than 5pm) unless the Authority has given to the candidate written approval before this date for a particular later submission date.

Approval is made on a case by case basis and approval must not be pre-empted.

The nature of the issue must clearly have a significant impact on the student's capacity to meet the due date.

Examples of (but not limited to) the possible valid reasons considered for granting a folio extension:

* Candidate illness - (**extenuating** circumstances not everyday illnesses) must be accompanied by a medical certificate – the certificate must give as much detail as possible – it is insufficient to have the doctor write “Medical Condition”.

* Death of a close relative (parent, brother/sister or grandparent) - must be accompanied by a copy of the death certificate or notice from the local newspaper where the candidate is named.

* Unexpected travel due to the death of a close relative (as outlined above) - travel itineraries and a declaration from a parent/care giver is required ‘

Examples of (but not limited to) the reasons why a folio extension would **NOT** be granted:

- * candidate holidays - interstate and/or overseas
- * planned school events such as drama and/or music performances
- * computer malfunctions

Student Ergonomics—Guest Speaker

Last week, Kira Watson, a physiotherapist from Coastal Physiotherapy, spoke to our Year 7, 8, 9 and 10 students about how to correctly wear and pack their school back pack, as well as how to set up an ergonomic study area at home when working on the laptop.

Points that Kira raised were that when wearing the back pack, students should be using both straps and securing the waist strap as well. This will ensure that the weight is evenly distributed. When packing the back pack, those things that are heaviest and flat should be placed closest to their back whilst lighter items should be placed towards the front of the back pack.

Ideally, when using their laptops at home, students should be sitting at a desk with an adjustable chair. Students should resist the urge to sit or lie on their beds whilst using the laptops as this does place extra stress on the back.

Uniform

I would like to commend students on how they are wearing their uniforms. On a whole, this has been very positive and shows the pride which students have in the way that they present themselves. On occasions, however, we have had to pick up some students on the way they present themselves and wear the uniform. One area of concern is the sports uniform and how it is worn when students represent the school at interschool sports.

It is important that the correct uniform is worn at all times during the day and when representing the College. Once again I commend those students who have been wearing their uniform correctly.

Class Photos

Class photos for the Kalori will be taken on Friday 29 August. Students should ensure that they wear their full winter uniform. Photos will be taken in the following order:

Period 1 and 2	Years 7 and 10
Period 3 and 4	Years 9 and SC
12.15pm	Year 12 Photo

Teams playing with 6 players: BHS Baboons, BHS Bonbons (M Beamish), Parkihigh (K Clarke), BPS Green (A Inness)

Teams playing with 5 players: BHS Bogans,

*****Rule Change*****

Penalty for players not completing duties will be: Team plays with 6 players the following week, if two players do not complete duties, team will play with 5 players, more than two failing to complete duties will result in forfeit the following week.

In the case of a non playing umpire failing to complete duties, team will play with six players the following week. This applies to all teams, High School and Primary
 All jewellery must be removed before taking the court.

All UMPIRES and SCORERS are responsible for arranging their own replacements if unable to complete their duties. Replacement must be of equal or better experience.

Contact your coach/school if unable to do duties as I am unable to find substitute umpires or scorers. Please let me know asap if you aren't available and who your replacement umpire/scorer is.

REMINDER: Scorers are provided by teams for their own games in ALL PRIMARY DIVISIONS.

Netta games will be scored for grading purposes
 Netta to Provide OWN UMPIRES.

NSATIS Winter Sport Round 5 and 6

The second double-header within as many weeks took place last week as Marist hosted the first Launceston Church Grammar and then Scotch Oakburn across the three playing venues.

Boys Hockey

After a slow start to Wednesday's home match against Launceston Church Grammar, Marist was fortunate to be only 1-nil down at half time. Grammar was the stronger side but the fact that we were only a goal down meant we were still in with a chance. We came out a lot stronger in the second half and with an early goal courtesy of Kris Chandra levelling the score, there was a glimpse of an upset. But Grammar replied with a goal soon after and, despite some excellent play, we were unable to level the score again. Harrison Templeton made some fantastic saves but couldn't stop a final goal with five minutes to go. Despite the loss it was an excellent performance from all players.

With two games in two nights, I was a little afraid the players might be tired for the match against Scotch Oakburn College. If they were it never showed in their performances and we started with the same conviction and team spirit as the night before. Scotch came with an older side but we weren't intimidated and started to dominate midway through the first half. A goal from Jessie Duncan helped boost confidence. A second from Jake Wolfe and the boys were playing the best hockey they've played so far this season. But Scotch was playing well and we couldn't afford to be complacent. The second half proved to be much of the same with everyone playing fantastic hockey and the goals flowed. Braden Johnson scored two, Vinnie Curtain one and Rhys Burgess, who had a great game setting up a few of the other goals, put two away himself. Scotch also scored a well-earned goal in the second half, but it didn't dampen spirits. The final score, 7-1.

Mr Mike Clancy | coach

Girls Hockey

Back-to-back home games saw two terrific wins for the NSATIS girls hockey team. With the team almost back to full strength, minus only Zoe Crawford, the girls were able to develop some set plays and enhance their skills and player awareness. Impressive play from Steph Wylie, Sidney Stokes and Ella Curtain saw Jemma Kenworthy and Chloe Leary put away two goals against Grammar.

Tired legs and early frustrations meant the girls really had to dig deep against Scotch in Thursday afternoon's match. Great stamina from Lilli Sage and Romani Kenworthy and positive leadership from Jemma Kenworthy saw the team cap off the week with a 4-0 victory. With just two games remaining this season, if the girls can keep up the great team work and amazing skills there is no reason why Marist won't finish the season on top of the ladder. Keep it up, girls!

Mrs Louise Sadler | coach

Boys Soccer

Wednesday's home game against Grammar was a pretty convincing win in the end, 6-1. However, the scoreline didn't really tell the whole story with the Marist boys saying it was the toughest game to date. The score blew out in the end with a couple of junk time goals when Grammar probably let down its guard. Credit goes to Marist for playing the game out and finishing off the game strongly. The first half was a pretty even tussle with both teams having a couple of chances. Although Marist had the better of the play, Grammar loaded up its backline and relied on counterattacks off a fast break. The tactic nearly paid off a few times with Andy Slater and Jack de Bomford called on for goal saving tackles. Daniel Rogers was subbed on and got things going with a tap-in goal after a good strike from Jack Wood rebounded to him. Rogers slotted a nice goal from the edge of the box soon after for a 2-0 lead at the half. Goals early in the second half to Monty Roberts and Jack Wood sealed the game before Grammar got one after a goalmouth scramble was "deflected" in. Late goals from Kyle Harman and Jack Wood settled the issue. As for better players, usual suspects Connor Parke and Steve Cable worked hard through the midfield, Slater and de Bomford were good down back and the Wood twins were both good contributors throughout.

Thursday afternoon's match against Scotch Oakburn College saw a few tired boys by the end and Marist did well to hang on for a 2-1 win. The word was that Scotch was a much improved team this year and that proved correct. Although Marist held sway for three quarters of the match, scoring opportunities were hard to come by. Both Marist goals came from penalties in the first half that were finished off in convincing style by Connor Parke. The first came from a good run by Kyle Harman who was causing trouble with his pace. A late tackle brought him down as he was about to shoot on goal. The second was a bit dubious, but the foul was there and Jack Wood went down as if shot to seal the deal. The score was 2-0 at half time. The second half was a struggle and Marist couldn't find the sealer. Scotch started to run over the top of the tiring Marist boys but great saving tackles from Jack de Bomford and some timely stops by fill-in goalie Joel Philpott held Scotch out. A late goal to Scotch heaped the pressure on some more, but Marist held on to maintain their winning streak. The match has served notice that we don't have things all our own way this season and we head up to Scotch next week for the return match knowing we need to step it up to come away with the points.

After a brilliant season, Marist has already sealed its spot on top of the NSATIS ladder and will host the northern final on 10 September.

Mr Brett Argent | coach

Girls Soccer

After forfeiting Wednesday afternoon's match to Grammar, the girls were looking forward to a competitive match against Scotch Oakburn on Thursday. The game against Scotch Oakburn started off strong with Marist scoring the first two goals. Our first half was fantastic and we headed into the half-time break with scores level at 2-2. Unfortunately the game got away from us in the second half as Scotch stepped it up a notch. Keyarah Glass-Loughrey in her debut NSATIS game for 2014 finished up scoring all four Marist goals. It was a solid effort from Marist and the girls played with a lot of heart but we will need to continue to work on tightening up our defending, including the mid-field chasing back with their players.

Ms Sarah Cowan | coach

Wing attack Bec Heald moves the ball down court for Marist Firsts in the round 5 netball match against Grammar last Wednesday

Netball

Launceston Church Grammar School travelled to Burnie for NSATIS netball on Wednesday in the first of this week's double header. The Firsts challenged Grammar at every opportunity, however the Launcestonians' strength and size proved too much for our young side and Grammar run out winners 58-33. Best player was Rebecca Heald who fought hard all game. The Seconds game saw a much tighter and closer game with Marist up by seven goals early in the last quarter. Grammar fought hard to come within four goals of snatching victory, but Marist held on for a 34-30 win. Best player were Allyce Winton and Calli Schumann.

It was excitement plus at the Harcombe Centre on Thursday night as both the Firsts and Seconds won, by 3 and 2 goals respectively. The Firsts have not beaten Scotch Oakburn College for many, many years in netball but in a fantastic team effort, the Marist girls kept with Scotch throughout the game, with the scores being level at three quarter time. In last quarter Marist showed determination and courage to get in front and come out winners 29-26. Better players in a great team effort were Kate Percy and Brianna Baird who had to work extremely hard to defend against excellent goalies.

There were many turnovers by both sides in the Seconds match. Marist showed great resilience when Kaylee Hardy went down early in the second quarter with a knee injury. With two regular players unavailable for the game it meant that we quickly suited up Marnie Shepherd who was watching on the sidelines. Bianca Howard was switched into an unfamiliar position of goal defence, and great leadership from goal keeper Emily Davidson created many turnovers for Marist out of defence. The end result saw Marist winners 29-27.

Mrs Tracey Rogers | coach
